Message from the Mayor and CEO

The Proposed Annual Budget 2021-2022 has been developed to meet the needs of local residents and businesses recognising the ongoing impacts of the COVID pandemic on our community.

We know 2020 was a tough year and that the impacts of the pandemic continue to be felt. This is why economic and community recovery is high on our agenda, as is delivering the services and facilities that are important to you.

We have endeavored to deliver a budget that is responsible and balanced, provides a strong capital program and is responsive to the growing needs of our community.

This has been no easy task – especially given the decision last year to implement a zero rates increase, divert \$11 million dollars to COVID relief and a seven million dollar shortfall in service fees.

We've also heard through feedback on the Council Plan that our community wants better roads and footpaths and more trees, facilities, amenities, and services – especially for the young, aged and disadvantaged.

We want you to know that we have heard you. The challenge for us has been how we deliver more and better facilities and services you are asking for on a finite income while at the same time some in our community are calling for reduced spending to lower rates.

Preparing the Proposed Annual Budget is an essential part of any Local Government and it's a complicated balancing act – weighing up all the demands for services and how they will be paid for, while meeting legal and policy requirements and ratepayer expectations.

We understand we will not have been able to please everyone but we have worked diligently to meet the needs of the community while keeping rates at a reasonable level.

Cr Michael Clarke
Mayor of the City of Maribyrnong

Stephen Wall
CEO of Maribyrnong City Council

Budget overview

This year, following adoption of the Local Government Act 2020, the Proposed Budget forecasts four years of spending aligning with the Council Plan 2021-2025.

Budget features and highlights

In the first year, 2021-2022, Council has budgeted to spend \$167.2 million to support ongoing delivery of services to the Maribyrnong community.

Services are outlined on the following pages.

Delivery of capital projects

- \$11.132 million for parks, open space and streetscapes in capital and improvement works including the planting of trees in streets, boulevards, and parks across the City
- \$13.755 million to improve Council-owned roads across the City
- \$1.578 million to build and improve footpath and cycle ways
- \$4.394 million for recreational, leisure and community facilities
- \$955,000 for off street carparks and other infrastructure
- \$1.25 million in waste management
- \$235,000 for Park Infrastructure Maintenance
- \$5.5 million in City Amenity
- \$2.7 million in Environmental Services
- \$3.3 million in Road Maintenance
- \$515,000 for drainage maintenance
- \$250,000 in Line Marking

Meeting the budget challenges

The Proposed Budget meets the challenges of maintaining ageing infrastructure while investing in new infrastructure to meet the needs of our growing population.

Budget and Council Plan – a sustainable future

Council's Proposed Annual Budget invests in a vision for an inclusive, flourishing, progressive city that cares for both its residents and its environment as outlined in our Draft Council Plan 2021-25.

The Draft Council Plan Actions for the financial year 2021/22 are aligned to the Proposed Annual Budget with 69 actions proposed to make up the Annual Council Plan Implementation Plan 2021-22 (year 1 of the Council Plan 2021-25). Of the 69 actions, 7 are considered major initiatives.

Major initiatives are significant initiatives Council has identified as priorities as they generate significant benefit to the community, directly contribute to the achievement of the Council Plan and have a major focus in the budget.

The proposed major initiatives for 2021-22 include:

Strategic objective 1: Safe climate and healthy environment

- Develop and implement the adopted Climate Emergency Action Plan (Years 1 – 4)
- Deliver actions under the Zero Waste Strategy 2019- 2030 (Short/Med term actions)

Strategic objective 2: Liveable neighborhoods

- Implement Maribyrnong Bicycle Strategy (years 1-4)

Strategic objective 3: A place for all

- Continue to implement strategies to respond to family violence and promote gender equality through the Towards Gender Equity 2030 Strategy

Strategic objective 4: Future focused

- Develop and implement a smart cities framework to make the best use of technologies for our community
- Single Customer View experience enabling digital delivery of services to our customers

Strategic objective 5: Ethical leadership

- Implement the Reconciliation Action Plan (RAP)

Each quarter, the progress of the 69 Council Plan actions is monitored and reported to Council and then the community via our website. End of year achievements are included within the Annual Report.
